4 HOW THIS BOND WORKS

Inflation Linked RSA Retail Savings Bonds give you the peace of mind of knowing that the value of your savings will stay ahead of rising costs

Your investment in these bonds will increase in value every six months in line with inflation (being the general increase in prices as measured by the Consumer Price Index announced by Statistics South Africa). This process is known as index linking. In addition to this inflation adjustment on the amount invested, you will also earn further interest on your investment, payable on specific interest payment dates. The investment will earn interest at a six monthly fixed real interest rate (this is the difference between the nominal interest rate and CPI rate). This rate is derived from government's inflation linked bonds yield curve, as traded on the JSE (Johannesburg Stock Exchange) and calculated separately by the National Treasury for the various terms.

The combination of index-linking and a fixed interest earned on Inflation Linked RSA Retail Savings Bonds means that your savings are guaranteed to grow ahead of the rate of inflation.

5 HOW ARE INTEREST PAYMENTS CALCULATED?

The Inflation Linked RSA Retail Savings Bonds offer inflation protection (growth) on capital invested until maturity and a real fixed interest rate, payable semi-annually, on the inflation adjusted capital.

Once you invest, you will receive your BASE- Consumer Price Index (CPI), this is the reference CPI, as determined by Statistics South Africa and calculated on the day you invest. Your capital will be adjusted upwards by multiplying your capital amount by the reference CPI on calculation date, which is the interest payment date (either May or November) and dividing it by your BASE-CPI. To calculate

Based on the above table, if you had invested R10, 000.00 in December 2009 in a 5-year inflation linked RSA Retail Savings Bond, your BASE - CPI would have been 109.2. On 31 May 2010, when the reference CPI of the day (reference CPI data of 4-months and 3 months back is used to interpolate the reference CPI as on 31 May 2010. Refer to the Terms and Conditions for the formula) was 110.2, your capital adjustment will be:

1. $110.2/109.2 \times R10, 000.00 = R10,091.58^*$ [Adjusted Inflation Capital amount]
2. $R10, 091.58 \times 2.5\%/2 = R126.14$
 *[the inflation capital adjustment will always be calculated on the original capital amount- in this example R10,000.00- as the reference CPI in future dates will already incorporate the capitalization of all inflation adjustments]

After each capital adjustment [adjustment for inflation] a fixed rate is calculated. A different fixed interest rate may apply to each maturity period – i.e. the three, five and ten year bonds will have a different fixed interest rate.

Please note that both the CPI rate and the Fixed interest rates could and may change semi-annually for new investments. The most recent interest rates will be available on the RSA Retail Savings Bonds website (www.rsaretailbonds.gov.za).

- The important thing to remember with the Inflation Linked RSA Retail Savings Bonds, is that your investment is protected against inflation and will always outperform inflation by the fixed interest rate. Investors consider inflation-linked bonds when the expectations for rising inflation is high.
- Tax shall be paid in the tax year, as and when interest is payable, to the capital investment. Capital gains tax is not applicable to the Inflation Linked RSA Retail Savings Bonds. For the Inflation Linked Bonds, all interest earned, (the Capital adjustment and interest payable), will be treated as normal interest for South African tax purposes.
- Inflation Linked RSA Retail Savings Bonds are well suited for saving over longer terms such as saving

for retirement, saving for a child's education, or similar.

- 12.1. A Registered Holder shall be entitled to withdraw a portion of or the entire Capital Amount prior to the Maturity Date, subject to the following conditions:
 - 12.1.1. The first such Early Withdrawal shall only be made after 12 (twelve) months from the Settlement Date;
 - 12.1.2. A Penalty shall be levied on the Early Withdrawal Amount;
 - 12.1.3. Where the Investor withdraws a portion of the investment, the Capital Balance remaining in any Retail Savings Bond after the Early Withdrawal and Penalty payment must be at least R1,000.00 (one thousand Rand);
- 12.2. The Registered Holder shall not be entitled to repayment of the RSA Retail Savings Bonds prior to the Maturity Date, otherwise than as provided for in clause 12.1 above.
- 12.3. Notwithstanding anything to the contrary contained in these Terms and Conditions, no Early Withdrawal in respect of any Retail Savings Bond shall be made, except in accordance with the provisions of clause 12.1 above.
- 12.4. Subject to the provisions of clause 12.1 above, no limitation is placed by the Issuer on the number of withdrawals by an Investor prior to Maturity Date.
- 12.5. An Investor shall only be allowed to withdraw early during the 1st (first) year under extraordinary circumstances. If the Early Withdrawal request is approved in the circumstances, the Capital Amount invested will be repaid minus all Interest earned within the 1st (first) year until the date of such withdrawal.

13. PAYMENTS

- 13.1. All amounts payable by the Issuer to an Investor in accordance with these Terms and Conditions shall be paid:
 - 13.1.1. in the Republic;
 - 13.1.2. in the currency of the Republic; and
 - 13.1.3. by means of electronic funds transfer into the Designated Bank Account within the Republic. No payment will be made to a third party's bank account unless the Registered Holder is a minor.
- 13.2. In the event that the Penalty is applicable, the Penalty shall be deducted from the payment of an early Withdrawal Amount.
- 13.3. To the extent permissible by law, the Issuer shall be entitled to set off any amount owed by the Investor to the Issuer as a result of any overpayment, against funds standing to the credit of the Investor's investment with the Issuer. The Issuer will inform the Investor promptly after the Issuer has effected set off in respect of any of the Investor's investment.
- 13.4. If the day for payment of the Capital Balance, any Early Withdrawal Amount or Coupon in respect of any RSA Retail Savings Bond does not fall on a Banking Day, the Registered Holder shall not be entitled to payment until the next Banking Day following such day and, in the circumstances, to any Coupon or other additional sums in respect of postponed payment.
- 13.5. Payments rejected for any reason whatsoever, shall be deposited into a non-interest-bearing suspense account. In these circumstances no interest will accrue to these funds and the National Treasury shall not be liable to pay interest.
- 13.6. All payments in terms hereof shall be subject to all fiscal or other laws and regulations applicable thereto in the Republic.

14. LIABILITY FOR WITHHOLDING TAX

All payments in respect of the RSA Retail Savings Bond shall be made without withholding or deductions for, or on account of taxes imposed

or levied by, or on behalf of, the Republic, or any authority in, or of, the Republic having power to tax, unless such withholding or deductions of taxes is required by law. In that event, the Issuer shall pay such taxes on behalf of the Registered Holder as may be necessary and the net amount will be payable to the Registered Holder after the withholding or deduction of taxes.

15. ROUNDING

For calculation purposes, any cash flow resulting from an RSA Retail Savings Bond shall be rounded to the nearest 1 (one) cent.

16. ADJUSTMENTS TO THE PUBLISHED CPI

The CPI shall be adjusted upon the occurrence of the following events:

- 16.1. Fundamental Changes
 - 16.1.1. If, while an RSA Retail Savings Bond remains outstanding:
 - 16.1.1.1. the Published CPI is discontinued for any reason whatsoever;
 - 16.1.1.2. in the reasonable judgement of the Calculation Agent, the Published CPI is fundamentally altered in a manner that is materially adverse to the interest of the bondholders; and/or
 - 16.1.1.3. in the reasonable judgement of the Calculation Agent, the Published CPI is fundamentally altered by law in a manner that is materially adverse to the interest of bondholders, then the Calculation Agent shall, in consultation with Statistics South Africa or any successor entity, calculate a Substitute CPI.
 - 16.1.2. A change to the Published CPI will be considered fundamental in the manner contemplated by clause 16.1.1 above if it affects either the character of the CPI itself or the character of the calculation of the CPI ("Fundamental Changes"). For the avoidance of doubt, only Fundamental Changes to the Published CPI will result in the calculation of a Substitute CPI in accordance with the provisions of this clause 16.1, while technical changes to the Published CPI, as more fully set out in 16.1.3 below ("Technical Changes"), will not result in the calculation of a Substitute CPI as aforesaid.
 - 16.1.3. Technical Changes include, but shall not be limited to, changes in:
 - 16.1.3.1. the specific items (for example, shoes or television sets) to be priced for the CPI;
 - 16.1.3.2. the manner in which individual price quotations are aggregated to construct component price indices for these items (aggregation of item sub-strata);
 - 16.1.3.3. the method for combining these component price indices to obtain the comprehensive, all items CPI (aggregation of item strata); and
 - 16.1.3.4. the procedures for incorporating new goods into the CPI and making adjustments for quality changes to existing goods. For the avoidance of doubt, Technical Changes made by Statistics South Africa to improve the accuracy of the Published CPI as a measure of consumer price changes will not be considered fundamental changes.
- 16.2. Delays
 - 16.2.1. If, as a result of a delay in the publication of the Published CPI, the Published CPI is not available in order to make a determination in accordance with these Terms and Conditions, then subject to the provisions of clause 16.2.2 below, the last Published CPI will be used by the Issuer to calculate the Substitute CPI for the month that a CPI figure is required, in accordance with the following formulae:
 - 16.2.1.1. in the event of the Published CPI being delayed by 1 (one) month only, then the Reference CPI shall be determined in accordance with the following formula:

$$CPI_m = CPI_{m-1} * (CPI_{m-1} / CPI_{m-13})^{1/12}$$

Where:

CPI_m is the Reference CPI

CPI_{m-1} is the last Published CPI

CPI_{m-13} is the Published CPI 13 months back; and

- 16.2.1.2. in the event of the Published CPI being delayed by more than 1 (one) month (the number of months being denoted by "n"), CPI_m shall be determined in accordance with the following formula:
CPI_m = CPI_{m-n} * (CPI_{m-n} / CPI_{m-n-12})^{n/12}
 Where:
CPI_m is the Reference CPI
CPI_{m-1} is the last Published CPI
CPI_{m-12} is the Published CPI 13 months back.
- 16.2.2. In the event of a Substitute CPI being applied in the circumstances contemplated by this clause 16.2, and it becomes necessary for any reason whatsoever to use the actual CPI for month that the Substitute CPI was determined, then the Substitute CPI shall be used for all subsequent calculations that rely on that month's Substitute CPI, and shall not be replaced by the actual CPI when it is reported. For the avoidance of doubt, the actual CPI, when reported, shall not apply retrospectively to such calculations.
- 16.3. Reset
 In the event that the Published CPI is reset by Statistics South Africa, then a new Reference CPI that is applicable for the Settlement Date shall be calculated in such a way that the Capital Balance remains the same immediately before and after the reset. In the circumstances, the Base Rate shall accordingly be reset to correlate with the reset CPI.
- 16.4. As soon as reasonably practical after effecting any Substitute CPI as contemplated by this clause 16, the Issuer shall provide notice of the substitution and the effective date thereof in the Government Gazette.
